# CURV® TECHNOLOGY

## Benefits of our innovative CURV® collections:

- **IMPACT RESISTANT & STRONG**  
Curv® material is light, but extremely tough. Its unique internal construction results in exceptionally high impact-resistance.
- **LIGHTWEIGHT**  
Curv® achieves an overall weight reduction of 50% compared to other fibre-reinforced composite, requiring less energy to manoeuvre.
- **AESTHETICALLY APPEALING**  
Curv® comes in many colours and finishes. Perfect for modern, timeless, high quality products.
- **ABRASION RESISTANT**  
Curv® outperforms conventional thermoplastics and is easily cleaned.
- **HIGH-TECH**  
From its initial entry into the composites industry in 2003, Curv® material has been highly engineered and perfected over several years.
- **RECYCLABLE**  
Curv® material is 100% recyclable.
- **THERMO-FORMABLE**  
When a sheet of Curv® is heated to an extremely high temperature, it can be moulded into many shapes and angles.
- **COLD RESISTANT**  
Compared to other materials, when introduced to extreme temperatures Curv® has the unique ability to increase its impact strength. (See diagram below).

## Best applications of CURV® material:

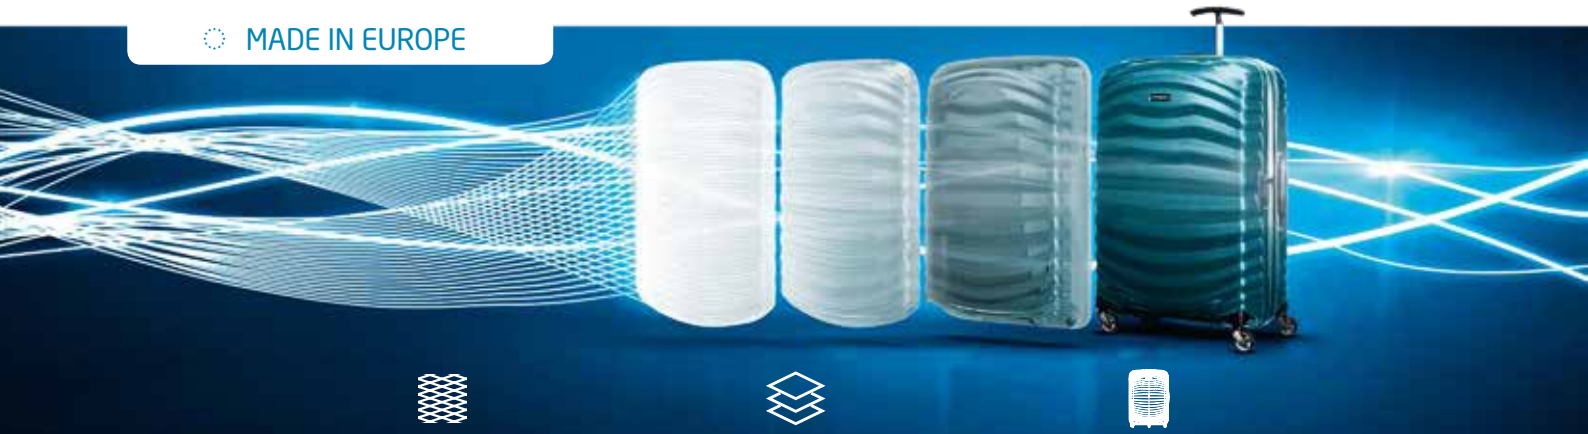

- **ANTI-BALLISTICS**  
Ballistic vests and anti-trauma packs.
- **AUTOMOTIVE**  
Air bag hinges, underbelly shields & door panels.
- **SPORTS EQUIPMENT**  
Shin guards, shoulder pads, kite boards, rackets and helmets.
- **FOOTWEAR**  
Hockey skates, ski boots & safety shoes.

## Curv® material - How is it made?

1. Made of 100% virgin polypropylene grains. These grains are melted into a thin sheet of polypropylene.
2. This sheet is cut into thin strips of about 1cm wide.
3. The strips are then stretched 10 to 15 times making them incredibly thin and strong.
4. The strips are woven together, in the same way as cotton is woven. The end result is a layer of stretched and woven polypropylene fabric.
5. Several layers of woven polypropylene fabric are partially melted and heat compressed to form an incredibly light and strong sheet.

## A REVOLUTION IN LIGHTNESS, STRENGTH AND SECURITY.

Lite-Locked FL offers greater security along with the lightweight and shock impact resistance of Curv material. The three-point locking system, launched as a Samsonite patented innovation in 1986, has continuously evolved and been improved over the last 30 years, and offers greater security and practical travel use. Curv material, exclusive to Samsonite, has revolutionised the luggage industry enabling the lightest and strongest Samsonite ever. Made in Europe.

- Made with Curv material: extremely strong, incredibly light.
- Smooth rolling, sturdy frame.
- Three-point locking system: super secure and extremely easy to open/close the suitcase.
- Iconic, award winning Cosmolite design.
- Designed to match with Cosmolite items.

## A SOPHISTICATED TOUCH TO A TIMELESS SAMSONITE CASE

A new luxury version of Samsonite's classic, Lite-Cube. A rich, deluxe suitcase has been achieved through the use of sophisticated leather together with stitching details and a premium colour palette: metallised aluminium Curv with toffee colour accents for a classic elegant look. With deluxe touchpoints, and a full option interior organisation system and leather soft touch handles. Lite-Cube DLX offers a highly stylish and effortless travel experience.

- Made with Curv material: extremely strong, incredibly light.
- Recessed carry handles, double wheels.
- Integrated ID-tag and soft touch ergonomically shaped pull handle.
- Highly featured interior.
- Leather trim.

## CURV, CREATING THE STRONGEST & LIGHTEST SAMSONITE CASES!

Lite-Cube is an ode to a Samsonite classic. Cubelite's highly commercial classic design-shape is in this version further emphasised by a completely new Curv look. This new look brings a more fine, structured weaving pattern and is completed by a very fine surface texture – creating an astonishing matt effect. Made in Europe.

- Made with Curv material: extremely strong, incredibly light.
- Recessed carry handles, double wheels.
- Integrated ID-tag and soft touch ergonomically shaped pull handle.
- Highly featured interior.
- Wide range of models.

**THE LIGHTEST SAMSONITE EVER!**

The inspiration for Lite-Shock Sport comes from nature. Its shock-absorbing shell design is based on the ripple-effect that appears when dropping a stone in water. This self-reinforced organic design gives extra strength to the case, especially in the corners, as the design wraps around the side of the case. Made with lightweight components, Lite-Shock Sport is the lightest of Samsonite's Curv cases. Lite-Shock Sport now includes red highlight sports trims, along with water resistant PU coated zips.

- Made with Curv material: extremely strong, incredibly light.
- PU coated water resistant zip.
- Red detailing on trim, wheels, badge and handle caps.
- Recessed TSA lock.
- Functional interior.

LIGHTEST POLYPROPYLENE RANGE!

Samsonite succeeded in creating an extremely lightweight three-point lock polypropylene collection, thanks to new revolutionary polypropylene material called Flowlite. This material enables us to inject very thin moulds whilst still keeping a strong shell, giving protection to personal belongings inside the suitcase.

- Seal to limit moisture penetration.
- Double wheels and dual tube wheel handle.
- Interior: lowered cross ribbons, zipped divider pad and large side pocket.
- Secure 3 point locking system.

VALUE PACKED COLLECTION!

With market leading experience in constructing Polypropylene luggage, Samsonite has developed the next generation of PP suitcase, Octolite. Every curve and groove has been sculptured into the perfect travelling companion. Ultra-light, super-durable materials increase strength and manoeuvrability, and the unique new shape – a bold box with rounded corners (octagon-shaped) – also adds strength, whilst maximising volume.

- Unique and dynamic self-reinforced design.
- TSA 3-dial combination recessed lock.
- Built-in ID tag.
- Recessed metal logo plate enhances its ultra-modern design.
- Double wheels.

## MADE WITH 100% RECYCLED FABRIC

Designed to lighten the earth. Built to outperform it. Made with recycled fabric. All fabrics, including the lining, are created from 100% post-consumer recycled plastic bottles. Smart Fix Buckles keeps tie down straps and buckles out of your way during packing. Makes it easy to secure items when fully packed. Patent pending unique wrap-around frame design is lightweight, strong, and stylish.

- Lightweight.
- 360° multi-directional spinner wheels for easy manoeuvrability.
- All sizes with fixed 3 digit TSA combination lock with cable securing all openings.
- Genuine cork detailing, sustainability in the finest details.
- Over 30 recycled bottles used to manufacture the fabric in each suitcase.

EXPANDABLE FOR INCREASED PACKING SPACE

Cityscape stands as Samsonite's unique take on contemporary urban mobility: combining convenience and functionality without compromising your own personal style.

- RFID Pocket.
- Organisational compartment.
- Padded, ergonomic, adjustable backpack straps.
- Smart Sleeve allowing you to stabilise your bag on top of the suitcase.
- 15.6" Laptop compartment.
- Padded tablet compartment.

SUPERIOR LAPTOP PROTECTION

The technology is highly visible on the outside through bold use of color. Your laptop can now receive the same shock absorption protection that runners have enjoyed in their footwear for years.

- Padded top handle for a soft-touch and secure grip.
- Organisational compartment.
- Padded, ergonomic, adjustable backpack straps.
- 16" Laptop compartment.

# RFID TECHNOLOGY

RFID blocking, protecting your travel goods & personal identity.

Samsonite RFID blocking wallets protect payment and identity fraud from unwanted skimming of your credit cards. The range incorporates an internal layer of metallic material which is placed in between the outer layer of leather and internal lining which blocks RFID skimming of your credit cards.

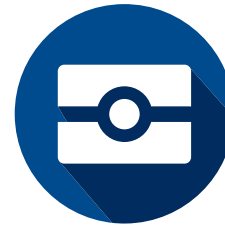

Made from full grain calf hide leather.

TRANSACTION  
SECURITY

IDENTIFICATION  
PROTECTION

PROTECT PASSPORT  
INFORMATION

## RFID - Radio Frequency Identification

Technology advancements enable faster transactions and simpler more efficient methods of identification. However, the radio frequencies can also be read by high-tech skimming criminals and used to access your money and private information.

Skimming is a technique used to illegally copy card data, even from a distance. With skimming on the rise, a better protection of your credit and identity cards is worth considering.

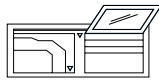

Samsonite RFID blocking wallets protect payment and identity fraud from unwanted skimming of your credit cards such as "Paywave" and "Paypass" and other contactless credit or identity cards. The range incorporates an internal layer of metallic material which is placed in between the outer layer of leather and internal lining which blocks RFID skimming of your credit cards.

## EFFECTIVE PROTECTION FROM IDENTITY THEFT

RFID blocking, protecting your travel goods & personal identity. Samsonite RFID blocking wallets protect payment and identity fraud from unwanted skimming of your credit cards. The range incorporates an internal layer of metallic material which is placed in between the outer layer of leather and internal lining which blocks RFID skimming of your credit cards. Made from full grain calf hide leather.

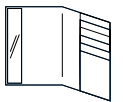

- Providing both data protection and transaction security.
- Retains control of your credit cards and passport information at all times.
- Reduces the risk of fraud.

## BE PREPARED AND TRAVEL WITH EASE

GLOBAL LIMITED  
2 YEAR WARRANTY

Our luggage covers will ensure your special Samsonite case stays looking pristine, no matter the weather on the tarmac or the traffic on the conveyor belt. Samsonite luggage is an investment, so why wouldn't you protect it? Covers are available in four sizes to cater for any case, and can be folded down to a more convenient travel size for when not in use.

Our luggage accessories are engineered to make it easier to identify, weigh and secure your luggage.

## TAKE YOUR TRAVELS TO NEW HEIGHTS

Keep your luggage safe and secure. Luggage security is top of mind for both domestic and international travellers; with Samsonite's collection of secure locks there is no need for concern about articles being stolen or even unwanted items being put into luggage. Choose from traditional key locks, combination locks and TSA locks.

## DESIGNED TO BRING COMFORT WHILE TRAVELLING

GLOBAL LIMITED  
2 YEAR WARRANTY

Engineered for on-the-go comfort. Samsonite's range of neck pillows provides ergonomic support to your neck and head to help prevent stiffness and pressure build-up in planes, trains & cars. With ultra soft fleece side, memory foam, bean filled or inflatable options there is a comfortable solution for every traveller.
